Mining Engineering Department Weekly Seminar

BROWN HALL 206 • March 4th • 3:00—4:00 PM

Ms. Beatrice Opoku-Asare, Director of Global Inclusion & Diversity at Newmont

Sharing Lessons from Newmont’s Inclusion & Diversity Journey

Bio:
Beatrice Opoku-Asare is the Global Director, Inclusion and Diversity at Newmont Corporation. Her role involves partnering with the Board of Directors, executives and each operating region globally to build an inclusive workplace where differences and similarities are respected, valued and leveraged to achieve Newmont’s purpose. Before moving to the US from Ghana, Beatrice led a team with accountability for Newmont’s Africa Region talent management, inclusion and diversity, global mobility, HR technology, talent acquisition, and facilities management. She is an environmental scientist by training and has worked within the technology and mining industries.

Personal thoughts on Diversity: “Diversity is the unique superpowers we each bring and the advantages of these superpowers can ONLY be leveraged within inclusive environments where we feel comfortable that what makes us different is celebrated and viewed as an asset.”
